ClassLink

GUIDE TO USING CLASSLINK AT RCOA

What is ClassLink?

ClassLink is a service that RCOA has partnered with to provide OneClick single sign-on into web and Windows applications. It is accessible from any computer, tablet or smartphone (may not be available on public devices e.g., library, hotel etc.).

In short:

- One location for all of your web-based tools
- Saves passwords for you
- Students have their very own access and customized screen.

How to log in

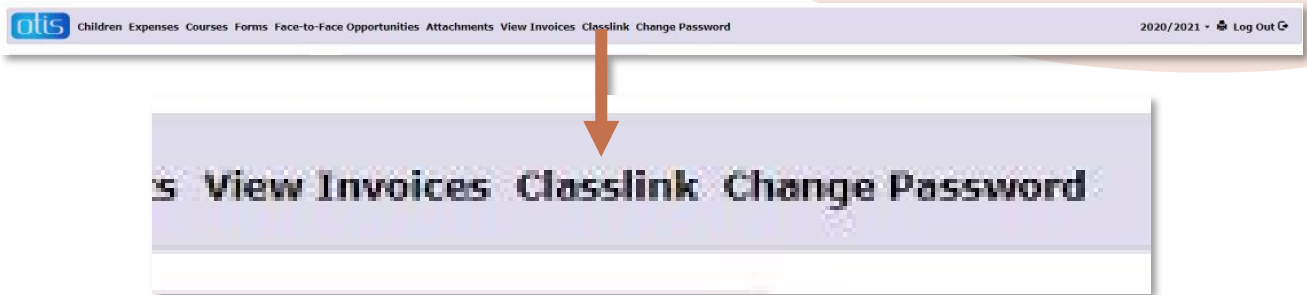

There are a couple different ways to login to ClassLink.

If you do not have an @rcoa email address you have a username and password in OTIS.

If you have an @rcoa email address (grade 8-grade 12, faculty) you will login using your Microsoft O365 account. (go to page 5)

No @rcoa.ca email

If you do not have an @rcoa.ca email address, log into OTIS. Along the top menu bar you will see a spot that says "ClassLink" click here.

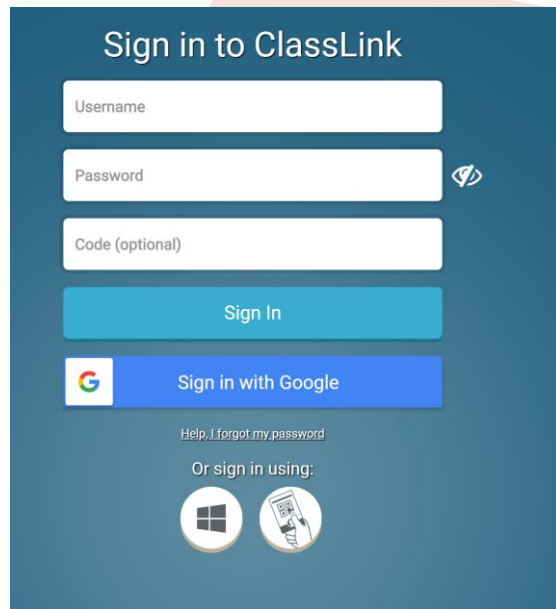

A new screen will open and you will see your username and password. Take note of these usernames and passwords.

Note: there is a parent log in and each child will also receive a separate log in.

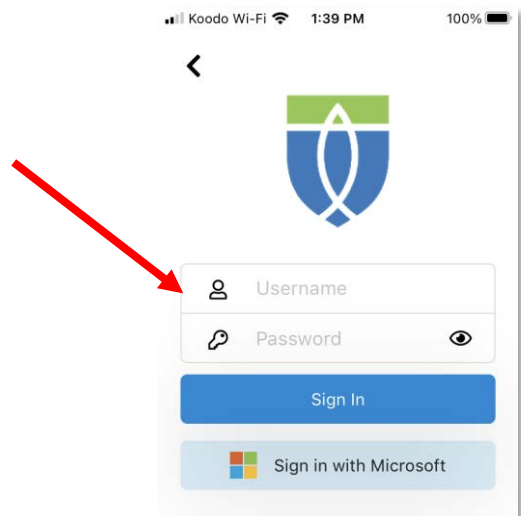

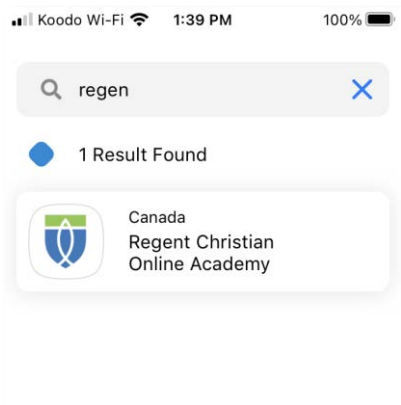

ClassLink will open in your internet browser. Enter the Username and Password that you have in OTIS into the spaces provide on the ClassLink sign in page.

A screenshot of the ClassLink sign-in page. It has a dark blue background. At the top, it says "Sign in to ClassLink". Below that are three white input fields: "Username", "Password" (with an eye icon for toggling visibility), and "Code (optional)". A blue "Sign In" button is below the fields. Underneath is a "Sign in with Google" button with the Google logo. Below that is a link that says "Help, I forgot my password". At the bottom, it says "Or sign in using:" followed by two circular icons: one for Windows and one for a mobile device.

ClassLink also has a mobile app that can be downloaded to through the Apple App Store or through Google Play.

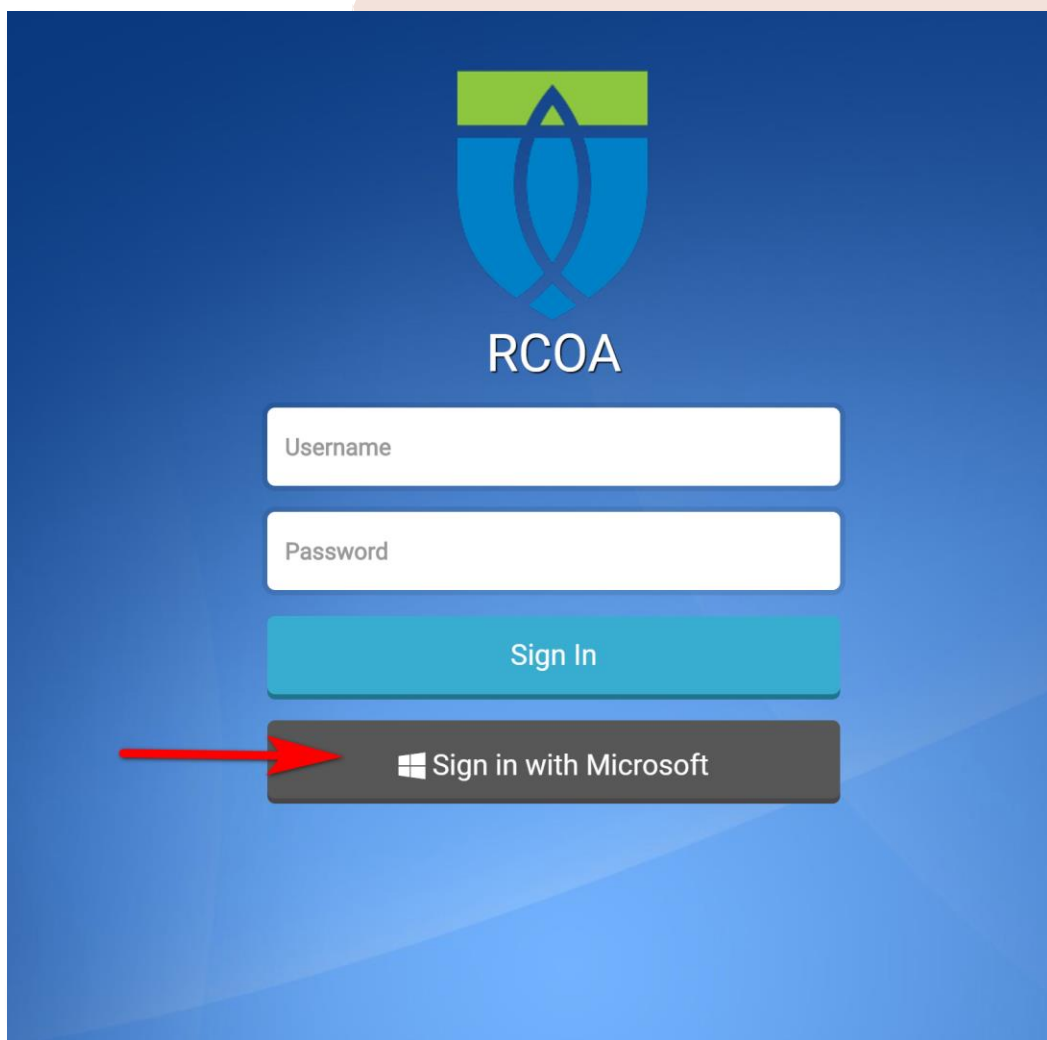

When you first open the ClassLink App you will need to find the RCOA log in page. To do this, in the search bar type "Regent Christian Online Academy". As you are typing it will narrow the choices down until you see the selection for RCOA. Click on that selection and enter your username and password.

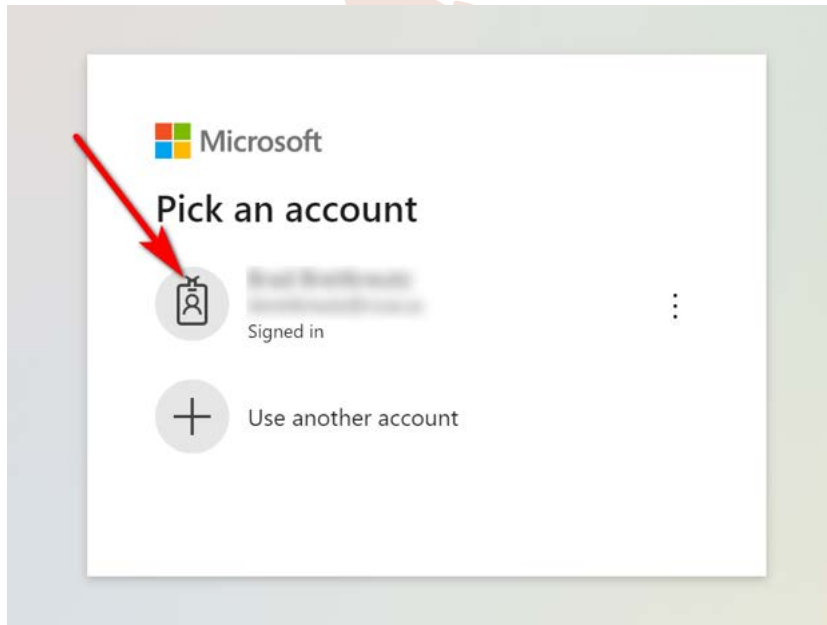

With an @rcoa.ca email

The first time you log into ClassLink you will need to go to: myclasslink.com/rcoa in your internet browser.

On this screen click the grey button that says “Sign in with Microsoft”

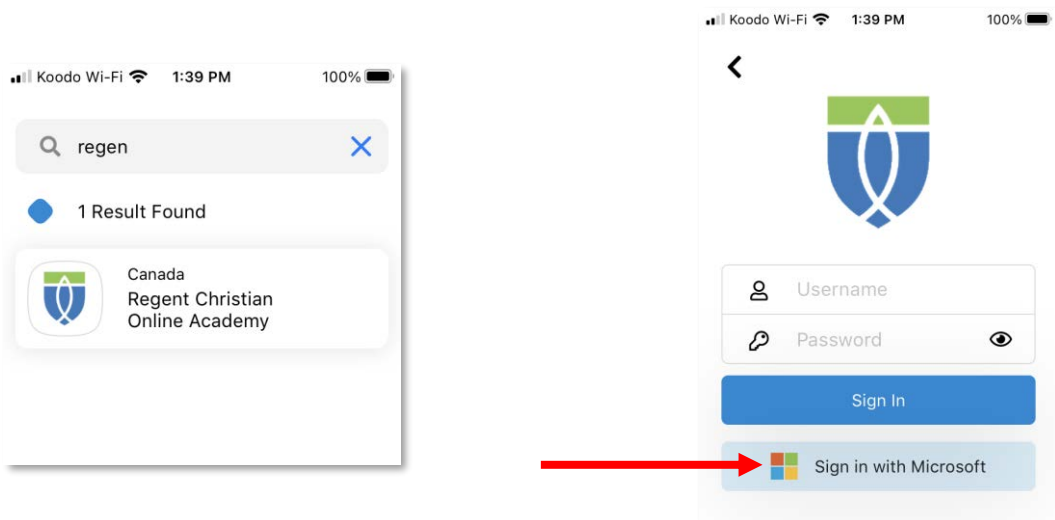

The image shows a login interface for RCOA. At the top center is the RCOA logo, which consists of a blue shield with a white stylized 'C' inside, and a green horizontal bar above it. Below the logo is the text 'RCOA' in white. Underneath the logo are two white input fields: the first is labeled 'Username' and the second is labeled 'Password'. Below these fields is a teal button labeled 'Sign In'. At the bottom is a grey button labeled 'Sign in with Microsoft' with the Microsoft logo icon to its left. A red arrow points from the left towards the 'Sign in with Microsoft' button.

Click on your @rcoa Microsoft account. If asked for your password, enter your Microsoft password into the space provided.

ClassLink also has a mobile app that can be downloaded to through the Apple App Store or through Google Play.

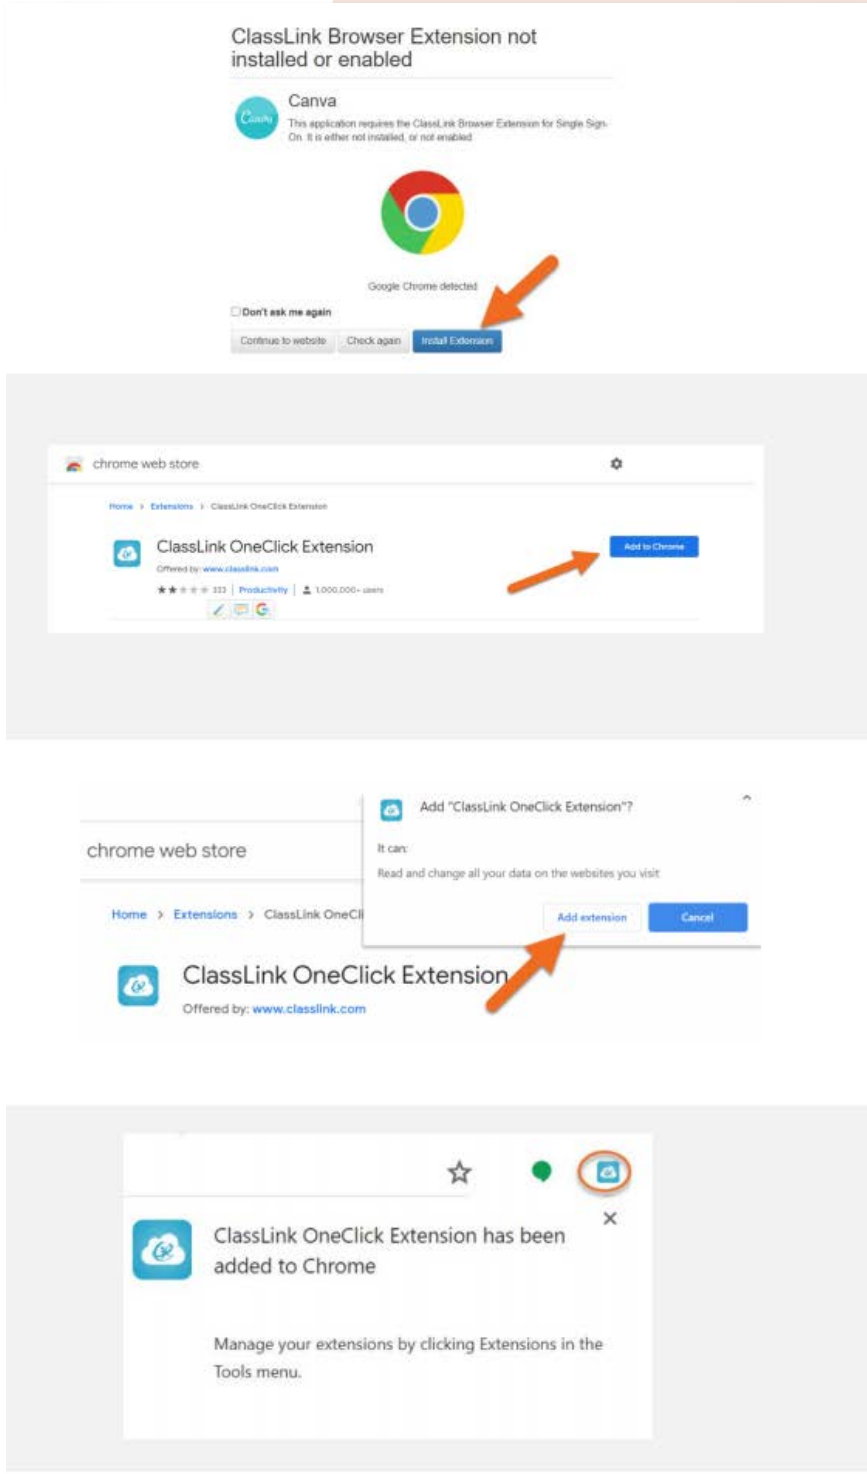

When you first open the ClassLink App you will need to find the RCOA log in page. To do this, in the search bar type "Regent Christian Online Academy". As you are typing it will narrow the choices down until you see the selection for RCOA. Click on that selection and click on "Sign in with Microsoft". Enter your @rcoa email and password.

Adding the Browser Extension

In order for ClassLink to work on your computer you need to install a browser extension.

ClassLink Chrome PE Extension Installation

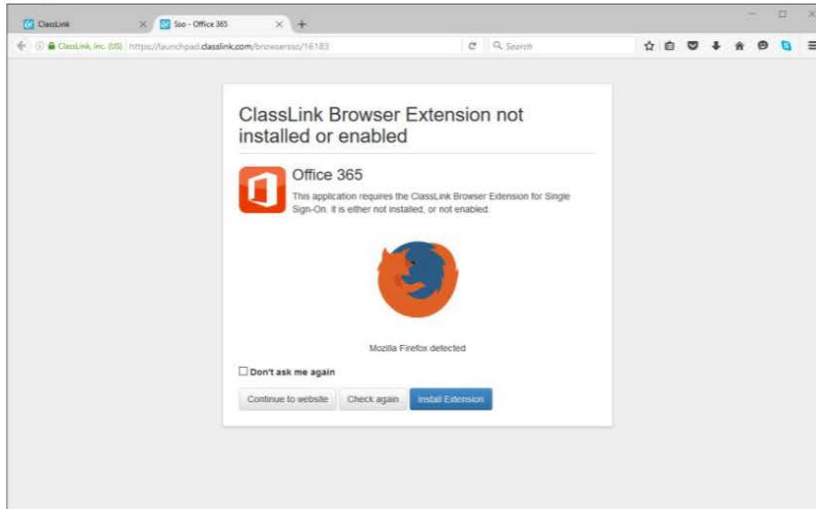

Adding the Browser Extension

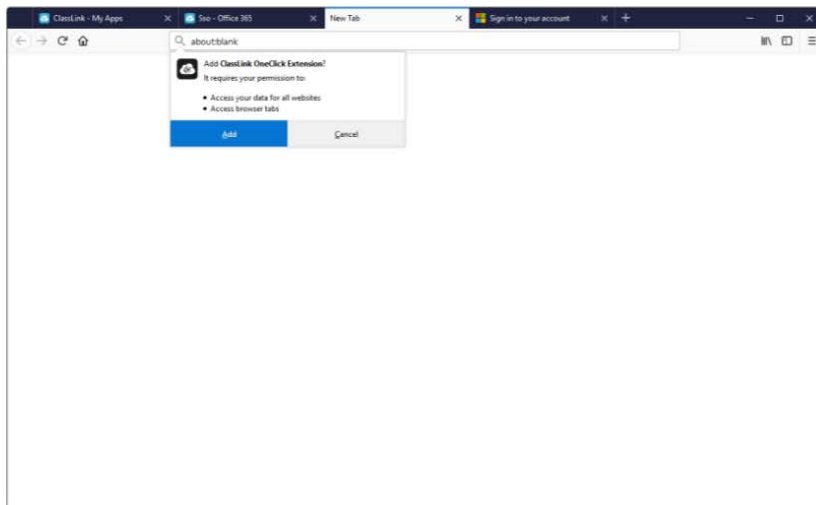

ClassLink Firefox PC Extension Installation

The ClassLink Extension is used to access some Single Sign-on applications.

1. To download the extension you will be prompted when you click on an application that requires the extension.

- 1b. If you are not prompted for the installation, go to the Firefox Add-ons website <https://addons.mozilla.org/en-US/firefox/> and search for 'ClassLink' in the top right search box. Click on the 'ClassLink OneClick Extension' Link. Then click 'Install'.
2. Click 'Install Extension'.
3. Click the Blue 'Allow' button. (if needed)
4. Click 'Add' in the pop up box on the top left. Another pop up will let you know the extension is installed.

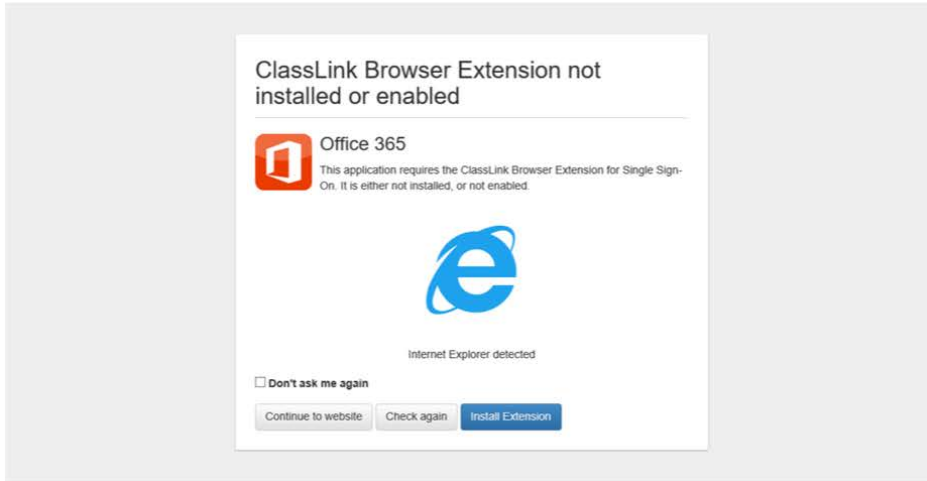

Adding the Browser Extension

ClassLink IE PC Extension Installation

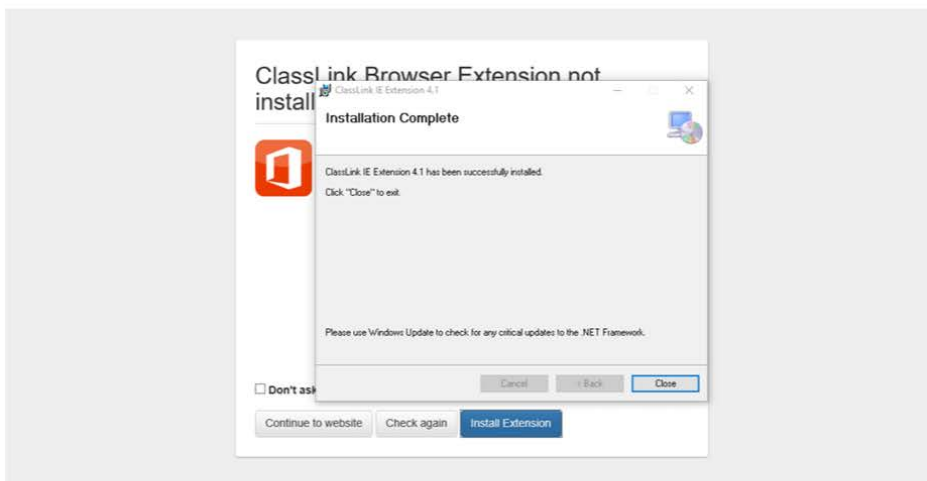

The ClassLink Extension is used to access some Single Sign-on applications.

1. To download the extension you will be prompted when you click on an application that requires the extension.

2. Click 'Install Extension'. This will open an msi file to be run at the bottom of the page. Click 'Run'.
3. Click 'Next' 3 times on the setup wizard to continue installation.
4. Click 'Yes' to allow the extension to be installed on the computer.
5. Click 'Close' on the installation window.

To continue using ClassLink, you will need to restart Internet Explorer and log back into ClassLink.

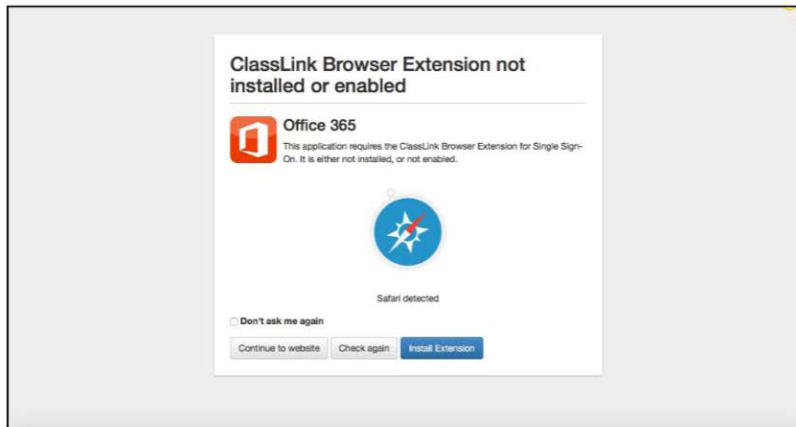

Adding the Browser Extension

ClassLink Safari Mac Extension Installation

The ClassLink Extension is used to access some Single Sign-on applications.

1. To download the extension you will be prompted when you click on an application that requires the extension.

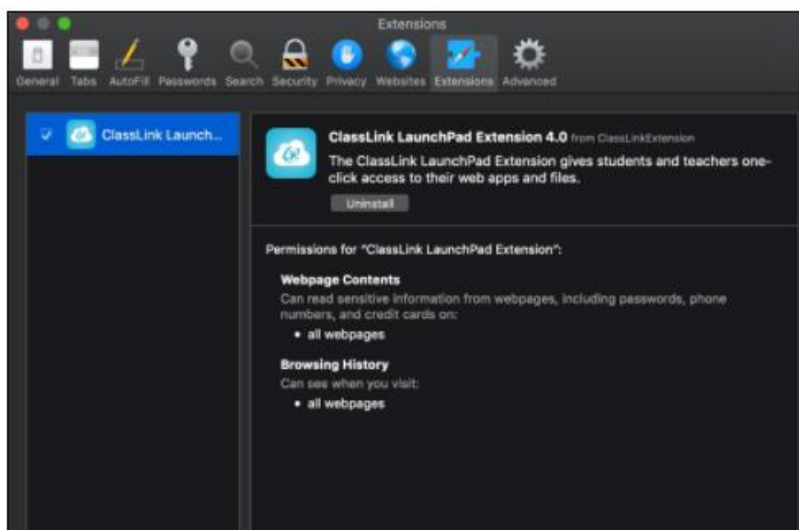

2. Go to the Download arrow in the top right and click on the Classlink-oneclick download.
3. Click 'Trust' when asked if you are sure you want to install the extension.
4. A window will appear showing you the extension is installed.

The ClassLink LaunchPad Extension on Safari is disabled. What do I do?

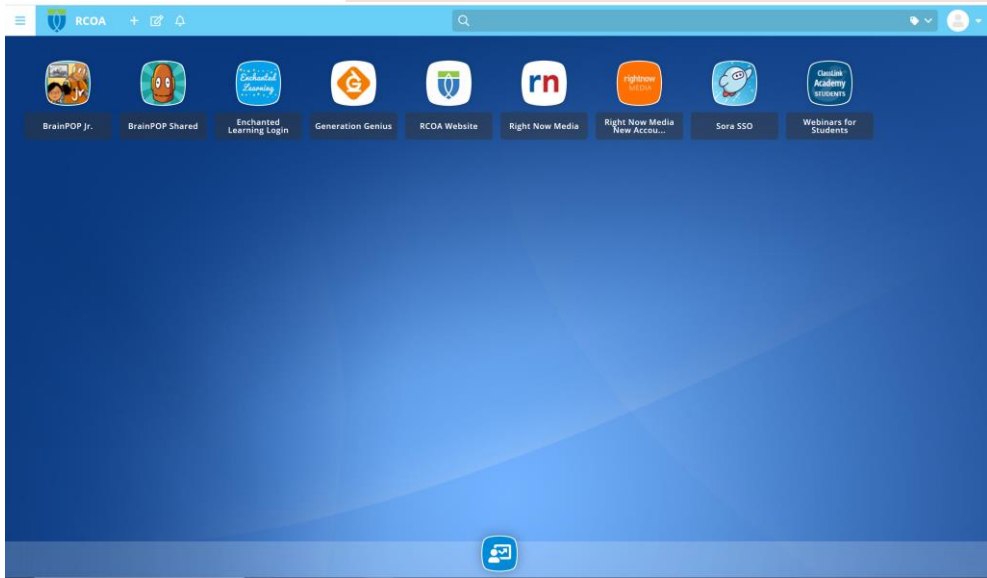

After you install the ClassLink LaunchPad Extension for the Safari browser, go into the Safari Preferences menu and click on Extensions.

Enable the extension by clicking on the checkbox to the left. See the screenshot below.

What you will see

The apps that appear on your screen when you first log on will vary depending on your login. Students and parents will/could see different apps as their needs for ClassLink are different. You are however able to customize program links to your ClassLink page. This will help customize the experience for you and your needs.

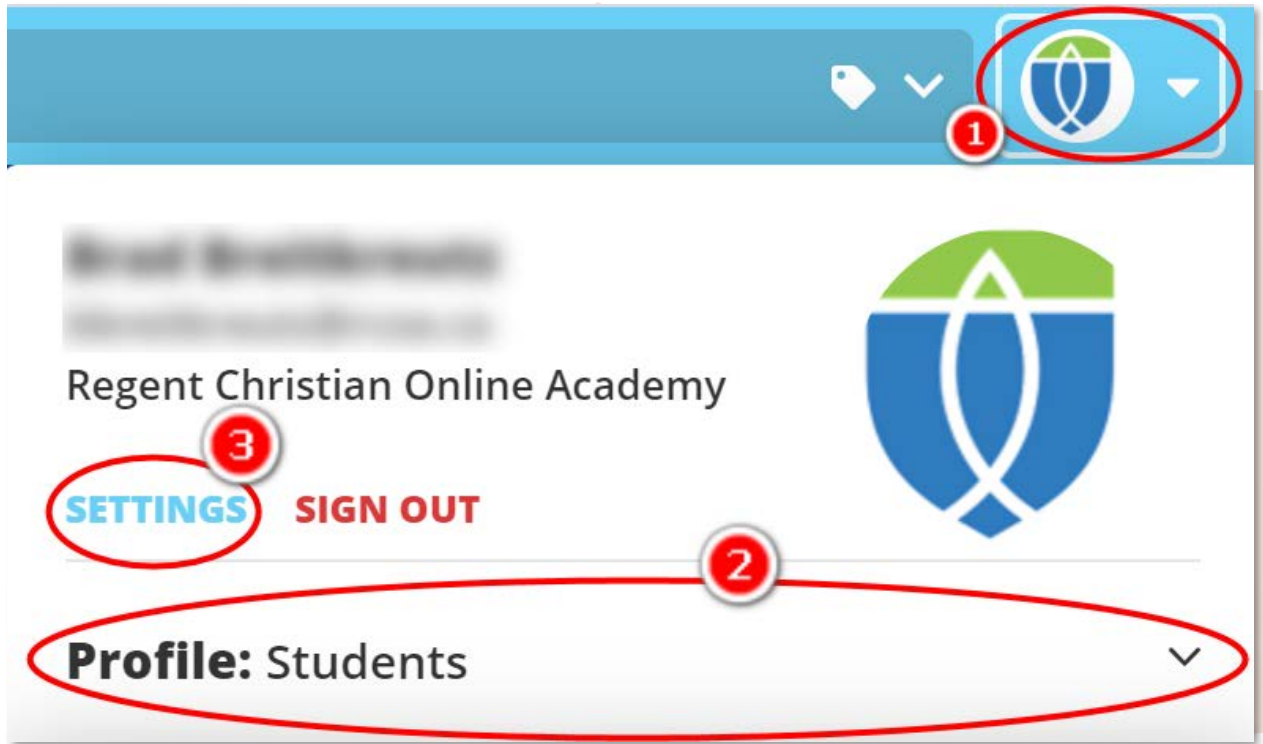

Sample ClassLink screen

Tool Bar

1. App Library: Click the + icon to access the App Library to add additional applications to your My Apps screen.
2. Edit Mode: Click the Edit icon to create folders, change the theme, app size, font style, or wallpaper.
3. Search: Allows you to search through your apps to find a specific app.

My Profile

1- Click here to access your “My Profile” information.

2- Profile: this will change based on your permissions given to you by the system administrator. The profile determines which apps you automatically have access to. It is possible you may have multiple profiles. If you see a little arrow to the right you can click and select a different profile.

3- Settings: Click here to change your settings.

Settings

In “My Profile” click on settings. There is six setting areas. Only General, Themes and Passwords will be discussed. The other tabs will not be used.

Settings- Passwords

Passwords in ClassLink are managed one of two ways. Some apps do not need you to add a password as the school has prepopulated the username and password. ClassLink will automatically log into these apps (examples: BrainPOP, MyRCOA). Other apps need you to add the username and password (just once). From then on ClassLink will automatically login to your account.

Apps that you have added a password to will show “set” Apps that are either pre-linked or need you to enter a username and password will say “Not Set”. Managing passwords will be shown a little later.

Using ClassLink

When you login to ClassLink you will be presented with a screen that looks similar to this:

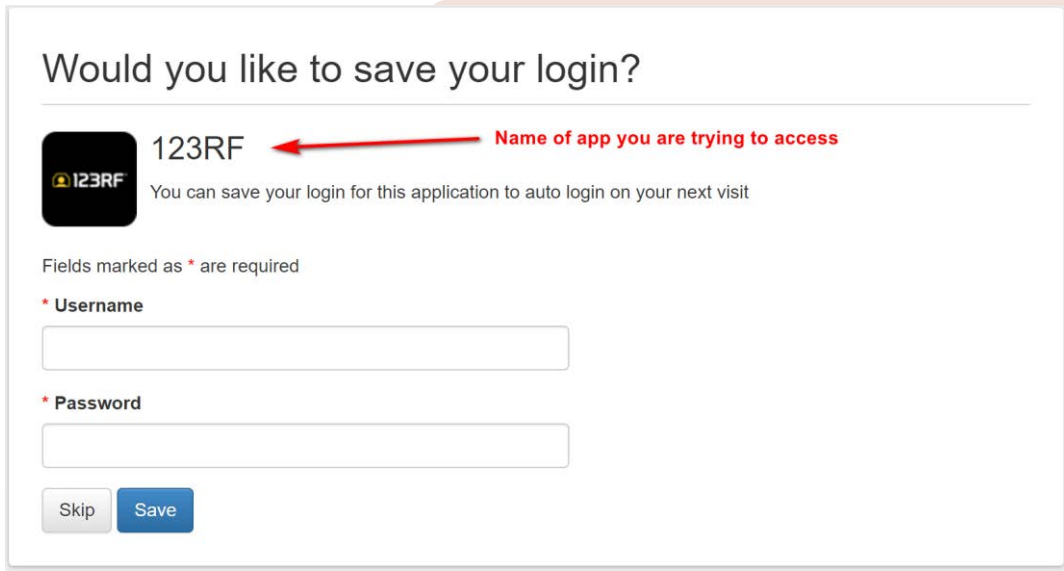

Simply click on the app you would like to access. A new tab will open in your browser taking you to the correct website. If the website has a username and password prepopulated you will see a screen that looks like this. This shows ClassLink is communicating the username and password to the service.

Using ClassLink Cont...

If you click on an app and the password has not been prepopulated or has not been added you will get a screen that looks similar to this:

Would you like to save your login?

 123RF ← Name of app you are trying to access

You can save your login for this application to auto login on your next visit

Fields marked as * are required

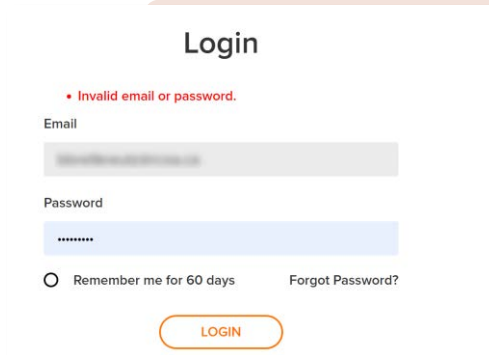

* Username

* Password

Enter your username and password into the correct fields and click save. ClassLink will remember this password for future Logins.

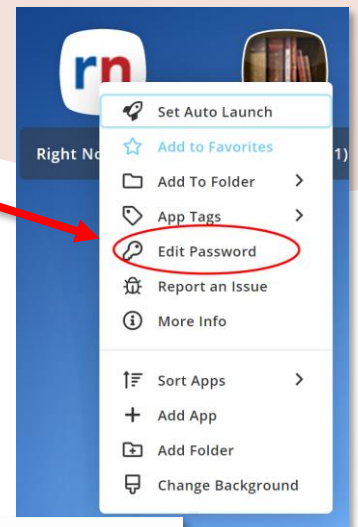

What if the password is incorrect?

It happens, we change a password or even type it in wrong. You try to let ClassLink do what it does and you get a message saying you have an invalid email or password.

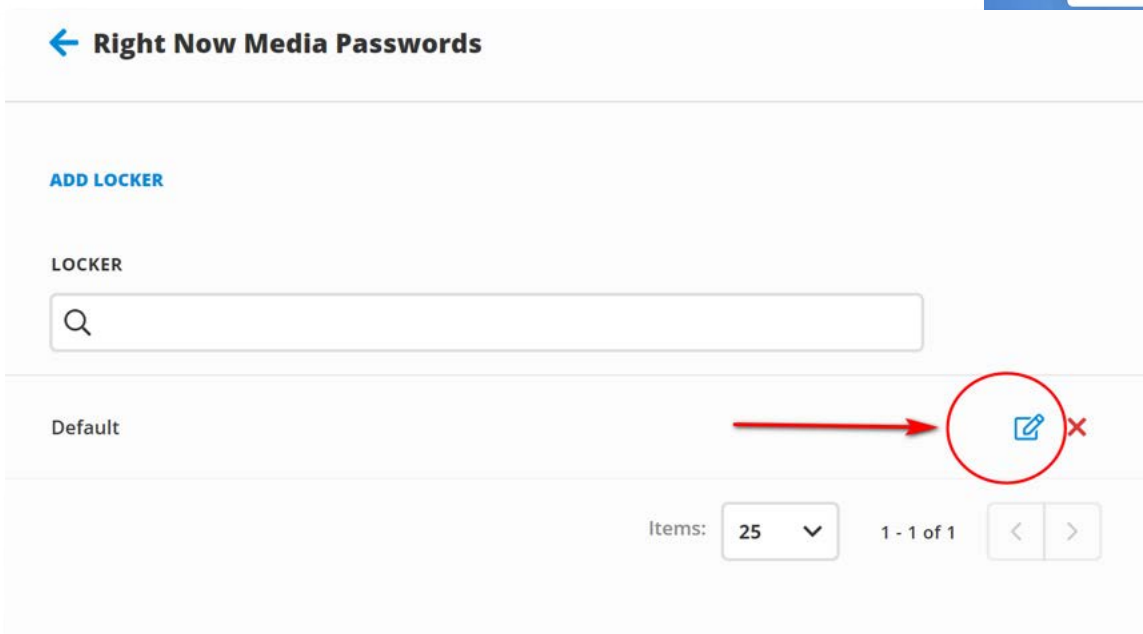

The image shows a 'Login' form with a red error message at the top: 'Invalid email or password.' Below the error, there are input fields for 'Email' and 'Password'. The 'Email' field contains a placeholder text 'Email@Example.com'. The 'Password' field is masked with asterisks. At the bottom, there are two checkboxes: 'Remember me for 60 days' and 'Forgot Password?'. A blue 'LOGIN' button is at the bottom center.

Simply return to ClassLink and “right mouse click” over the app that has the incorrect password. Click on “Edit Password”.

The settings/ passwords section will open. Click the blue box with a pencil to change your login information.

The image shows the 'Right Now Media Passwords' settings screen. At the top, there is a blue arrow and the text 'Right Now Media Passwords'. Below this, there is a section titled 'ADD LOCKER'. Underneath, there is a 'LOCKER' section with a search bar. Below the search bar, there is a 'Default' section. A red arrow points to a blue box with a pencil icon and a red 'X' icon. At the bottom, there is a section titled 'Items' with a dropdown menu set to '25' and a '1 - 1 of 1' indicator.

Adding a New App

ClassLink gives you the ability to add a quick link to subscriptions that you currently hold. To do this click on the little + on the top of the Class Link Page.

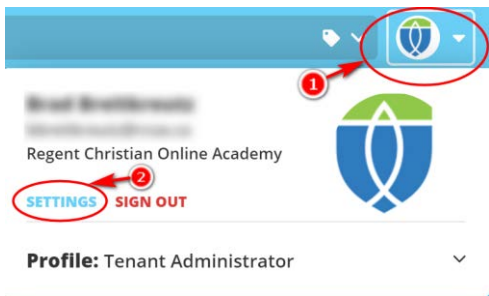

The App Library will open. This library contains thousands of links to apps that you may want to add to your library screen. Simply find the app you want to add and click the “Add” button. You can also search apps by category or by using the search bar.

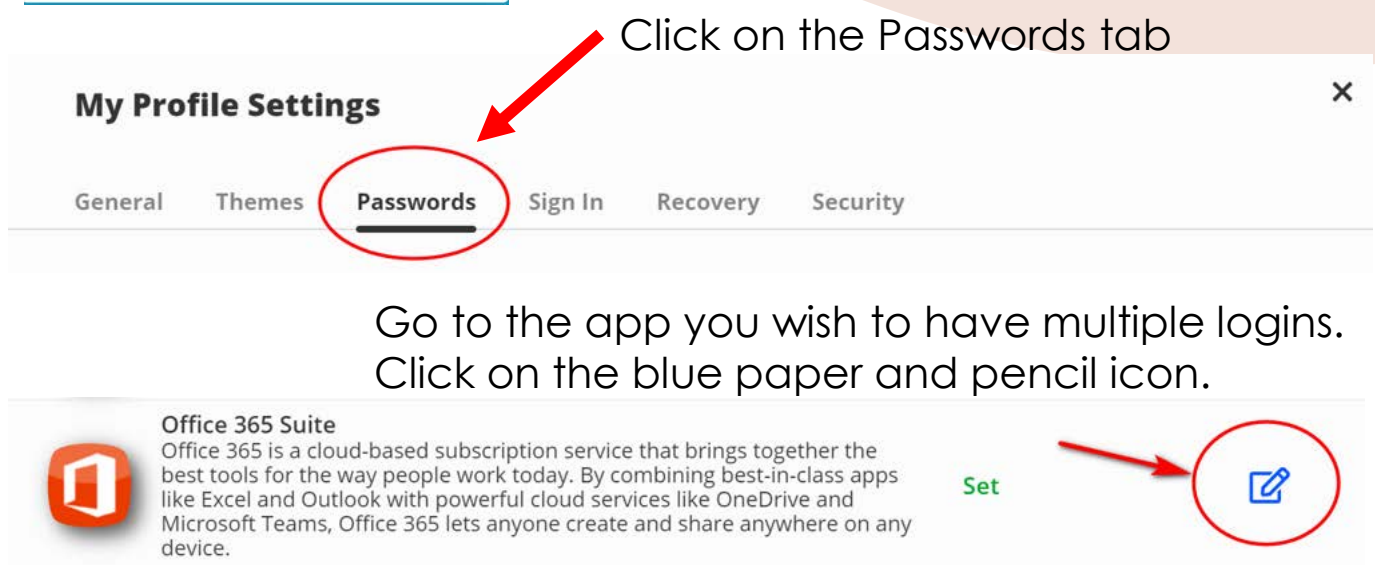

Creating a New Password Locker

ClassLink allows for multiple user logins for each app. This might be used when you have multiple accounts for the same app. For example, you have and RCOA login to Microsoft Office and a Personal login to Microsoft Office or if you have several children with different FreshGrade logins. Multiple logins can be added to your ClassLink account to help you login to the account to which you want to login.

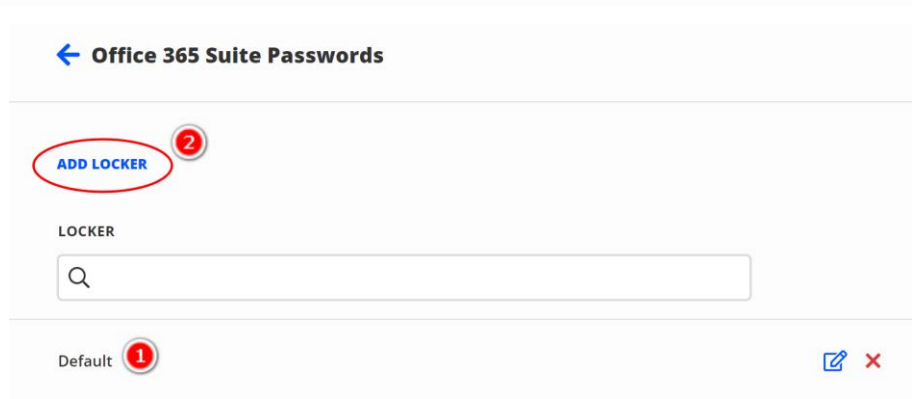

To begin click on your "My Profile (1)" and then Settings (2)

Click on the Passwords tab

Go to the app you wish to have multiple logins. Click on the blue paper and pencil icon.

The 'Default' (1) is your primary username and password. Click "Add Locker" (2) to create a new saved login.

Locker Name *

1

(1) Locker Name- This helps identify which account you will be logging into. E.g. "FreshGrade Sam"

After login go to this address

2

Save

Warning! Previously logged in accounts will be chosen unless they are logged out.

Please choose an account

Default

Personal Login

Now when you click on the app in ClassLink you will be given a choice of which account you want to login as.

Please note: You will automatically be logged in to a previously chosen account unless you log out of the chosen app at the end of your session.

Final Notes

ClassLink will be available to you as long as you are a part of RCOA.

The use of ClassLink can help keep your commonly and less commonly used websites and apps easy to manage and find. RCOA hopes you enjoy and find this service helpful.

If you have any further questions please consult your HLST, Homeroom teacher, or your primary RCOA contact person.
